

## Oxford Hackspace

### *Are you a curiosity-based organism?*

Oxhack is Oxford's only makerspace, an accessible, DIY tool-sharing community workshop and prototyping lab located next to the Oxford Castle in Oxford city centre.

Run by volunteers, the space provides tools, training, studio space and support for creativity, initiative, learning, the social good and the achievement of meaningful work. Everyone is welcome.

Come by, meet the community, take a tour of the facility and meet the laser cutter during our weekly Thursday open nights, every Thursday from 7-11pm. 3D body scans and prints may also be available upon request.

\*\* Thanks to the support of the Oxford Trust, we now also operate a staffed **prototyping service** as well, for all your business or personal product prototyping needs. \*\*

**Location & Hours:** <https://oxhack.org>

**Phone:** 01865 261462

**Twitter:** @oxfordhackspace

**Events:** <http://www.meetup.com/Oxford-Hackspace/>

**Discussion List:** <https://oxhack.org/>, click on Mailing List

**Prototyping Enquiries:** [prototyping@oxhack.org](mailto:prototyping@oxhack.org)

**Other Enquiries:** [hello@oxhack.org](mailto:hello@oxhack.org)
